

# PORTABLE BUILDINGS.

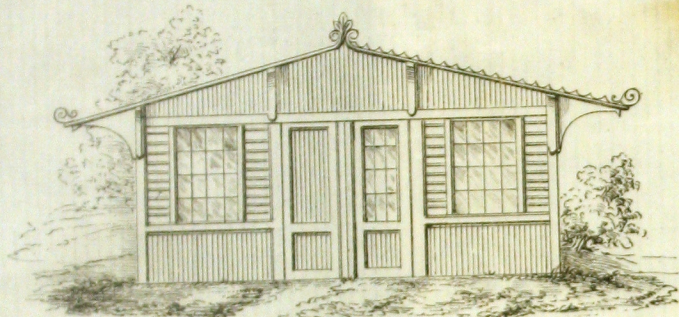

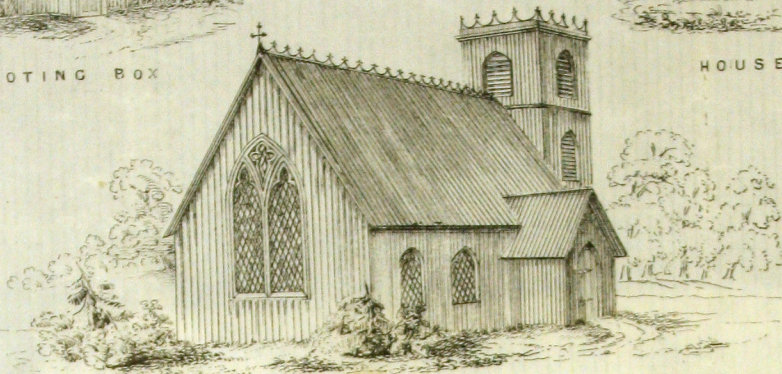

*Not Fixtures on Leasehold Property.*

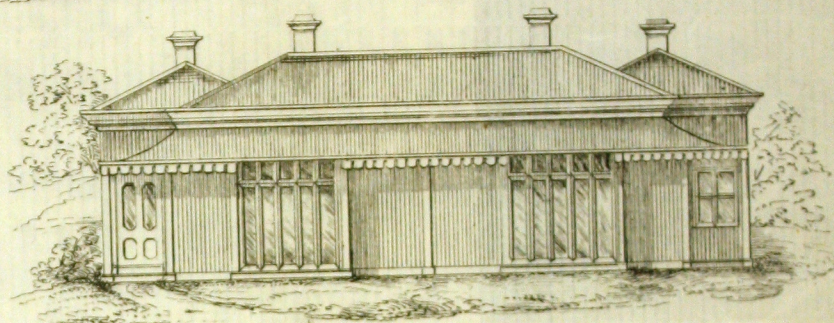

COTTAGE, OR SHOOTING BOX

HOUSE, SCHOOL, OR CHAPEL.

EMIGRANTS COTTAGE

FAMILY RESIDENCE

We beg to inform you that we have made arrangements which will enable us to execute orders to any extent for Portable Buildings either constructed of Iron or Wood. These Buildings are specially applicable to Schools, Churches, and temporary structures of every kind.

The facility of construction, durability and moderate price, recommend them particularly to the Clergy and all those interested in providing Church and School accommodation, now so much required both in and near the Metropolis, and in all parts of the Country.

Estimates and Plans will be furnished on application, and we supply skilled workmen to erect the buildings in any parts of the world.

W George Robinson

Dear Sir

I had this pleasure  
Yesterday - I could not get at  
the Rotherham Cmpy what I  
thought would do, therefore  
enclose you a pattern leaf from  
another House - The large panel  
may be worked into a Kelpit &  
reading desk or any other pattern  
or handsome thing may be  
made with it - The other  
panels would do for altar &  
rails - The Gates you must  
have made I should be done  
out of handsome straight Bars  
with panel coping the middle  
I shall be happy to receive  
your commands I am in  
haste Yours respectfully  
W H Brown
